In 1 Corinthians 12 we have the view of the believer’s gifts from the standpoint of the body of Christ as a whole. If you look at Ephesians 4, you get a view of the gifts from the standpoint of the giver—Christ. There is another passage in Romans 12 which is the view of the individual believer.

Exodus 31 in the Old Testament is a fantastic passage showing how God is going to accomplish His work through His people. Spiritual gifts are divine enablements to carry out divine mandates.

So you have three things involved: you have a giver, you have a receiver, and you have a gift. God commanded Moses to build the Tabernacle and He called these men and put in their hearts a skill, and the Spirit of God has given them a special endowment to use the natural abilities which also came from God; and all of this was put together to accomplish the work of God.

Let’s go back to 1 Corinthians 12. In the Corinthian church demon possession was very common because there was a tremendous giving over to demons, demon worship, and pagan gods. So Paul has to counter all of this to show the real as opposed to the false and that is the whole purpose of chapter 12.

In the first place, in verse 1, Paul says these spiritual gifts are important. In verse 2, he says that identity is important, and in verse 3, Holy Spirit supervision is immediate. In verses 4-7, Paul gives an outline of the Holy Spirit’s ministry in the church—verse 4, the same spirit; verse 5, the same Lord; verse 6, the same God. In verse 7, Paul is alluding to a theme that God never gave a gift except that He gives it to edify and to build up the body of Christ. Every talent, every ability, every natural gift is given to a believer for two purposes: God’s glory and others’ good. God gives gifts for the purpose of building up others, and He emphasizes that any spiritual gift is to be used for the glory of God and not for personal ecstatic enjoyment to self.

Now let’s examine this passage. In verses 4-7 Paul gives a very simple outline—diversity (v. 12-27), and different workings (v. 28-31). From verses 8-11, the first gift is the word of wisdom, direct insight into truth. Next, the word of knowledge, that is, results from questioning or investigation. Third, faith by the same Spirit, a vision of that which cannot be seen, special faith to do the work of God. Then comes the gift of tongues, next the interpretation of tongues. All these gifts are given to every man as He wills. Here is the one basic problem I have with the modern charismatic movement, or any movement that tells me I must beg the giver for the gift, for the Bible tells me that the Spirit of God divides these gifts to every man as He wills.

Secondly, Paul says God gives to every man as He wills and not as we will; but God gives gifts according to His calling. I cannot fathom God calling you to be a pastor and not really equipping you to be one. I cannot fathom God calling you to a ministry of exhortation and not giving you that gift. And that is what Paul is saying here as He seeks to show the unity of the Spirit in giving the gifts. Then he points out that God will give these things in His own time and in His own way and for His own purpose.

In verses 12-27, the body shares a common unity in the Spirit, as seen in verse 12, a common baptism in verse 13, and a common fellowship also in verse 13. The word body is used sixteen times in this paragraph, and that is why I say that this passage shows the use of the gifts within the body of Christ. Let’s say it once and for all: God gave spiritual gifts to build up the body.
Interviews with Counsellors

Kermit Zopfi '50, dean of students and assistant professor, earned his B.A. and M.A. at Wheaton College and recently acquired the M.A. in guidance and counselling from Azusa Pacific College.

Q. Mr. Zopfi, how is it that you seem to enjoy grappling with the difficult problems that young people face in their individual lives?

Zopfi: Ever since I have been in the Lord's work, I have worked with young people—at least thirty years. I believe that the Lord has called me to work with young people. The Lord very definitely led me back to Bryan as Dean of Students in 1972. My training in Christian Education, counselling, and psychology has also prepared me for the work I am doing. Then, too, I do love young people. I view my position as that of a "servant of young people" and not as one who is here to lord it over them. The Lord very definitely led me back to Bryan for the work I am doing. Then, too, I do love young people. The spiritual tone of the campus. I have been at other Christian colleges and have worked with young people—almost thirty years. I

Q. Miss deRosset, how did you get started in personnel work at Bryan?

deRosset: It was my first job. I was interviewed for the position of resident assistant during my junior year and was later hired. After having spent my senior year fulfilling the responsibilities of that position, the dean of women talked with me about becoming her assistant the following year. This was something totally unexpected—that I, of all people, should be chosen for such a position. But, I believe that it is God's will that I work here. Huston Hall and assistant to the dean of women.

Q. What rewards have you found in dealing with the young women?

deRosset: The rewards are too numerous to express here. The lasting friendships with so many of the women students have made it worth while. The opportunity to talk with girls away from home.

Q. Here's a question for the dean of men: what are your contacts with girls away from home?
Andrews: This is what I consider to be a delicate facet of being a head resident. It is my responsibility, and I could be very easily be overbearing by making my presence known every day. That means that I have to trust the men who work for me as resident assistants to do the discipline in the dorm. Most of my personal contacts in the dorm are social. In an informal way in their rooms. There is usually something interesting going on that I participate in. Right now, there is a nerf basketball tournament in which I am entering. It's an annual event run by Jeff Tubbs in his room.

Robert Andrews '67, dean of men and part-time instructor in the Division of Biblical Studies, holds the M.Div. from Trinity Evangelical Divinity School and the B.A. in college student personnel services from Tennessee Technological University.

Q. Mr. Andrews, what aspects of your own college and seminary training have helped you most in your present position?

Andrews: The greatest help to me from my own college experience is that I went to Bryan myself. I know what it is like to live in the dorm at Bryan, and I know that I did it and that I can empathize with him. If I had to be a head resident, I'm sure that I would have to be a head resident. I'm sure that I would have to be a head resident. I'm sure that I would have to be a head resident.

Q. What do you think are the most important differences in attending a Christian college as compared to a secular institution?

Andrews: Academically I believe that the Christian college is far superior because the Christian college professor is still interested in maintaining high academic standards and still believes in absolute "true truth." Socially the Christian college is the ideal place to meet and date fine Christian young people. The secular school has only two things that the Christian school doesn't have: highly specialized majors and a strong challenge to the Christian position that can lead to strong Christian maturity.

Anice Pence '74 is an elementary education major who exchanged on the Bryan campus.

Q. How do you like the responsibility of being "mother" for a hundred girls after just graduating yourself?

Pence: Sometimes I joke with the girls about being their mom, but I really prefer that they feel toward me as they would an older friend or sister. I'm glad that I am in this position the year after my graduation because I haven't been so long ago that I have had some of these problems. That is a humbling feeling and helps me to picture their situations much easier. Also, the Lord has given me four good R.A.'s (Resident Assistants) to share that responsibility of being a mother to girls away from home.

Q. What does your work include beside giving permission for girls to go out of town?

Pence: My work in the office as secretarial assistant involves some secretarial work, some work as receptionist, some counselling, and giving out of information. In the dorm generally I am available to the girls in case they need someone to talk to, or to ask questions of, or as is sometimes the case, to take them to the hospital. At all-in or curfew time, the four R.A.'s in Huston Hall report to me and we discuss any problems that arise. I want to add that my R.A.'s have been a great encouragement to me this year.

ATTENTION! HIGH SCHOOL TEACHERS, COUNSELLORS, PARENTS

This is our special invitation to you to visit the campus during high school spring (Easter) vacation. We'll plan for you . . .

* to meet this year's students
* to chat with folks you knew at Bryan
* to see the changes in our buildings

You're welcome to visit here at any time, of course, but since the week just before or just after Easter Sunday (March 30) is the usual time for high school vacations, we'd like to suggest that you come during those weeks and bring some high schoolers with you.

With advance arrangements we can accommodate student prospects in the dorms. We will also be glad to assist with motel reservations for you if you wish.

Write to our Director of Admissions, Bryan College, Dayton, TN 37321, or call (615) 775-2041, Ext. 27, to request prospective student visitor forms.

INTERVIEWS

(Continued from page 2)

Q. Anice, what is the most rewarding part of your work?

Pence: It is to know that something I have said has helped someone. I realize that without God I am nothing and it really is a great feeling to know that God is using you when talking with a girl. The individual contact is what makes this job worthwhile to me.

Q. Do you want to mention the most difficult part?

Pence: That would have to be the millions of odds and ends that have to be remembered or else! When you are in many student contacts in and out of an office in a day, it makes for variety and confusion.

Q. Karin, what are some of your frustrations?

deRoss: As much as I appreciate all of the women—without exception—it is hard to get away from the job anytime. Even when I am on vacation, the responsibilities of the job carry over. The interruptions (most of them are very legitimate) are almost constant, and over a long period of time it tends to wear a person down physically and emotionally.

Q. How do you cope with the changing attitudes about men's hair length and style?

Andrews: Hair length is not really an issue with me. I enforce the rules to the best of my ability. I believe that we have a reasonable rule and I know that we have reasonable students. It is not really a problem this year as it has been in the past. That is probably because men's hair styles are changing. Our students look very good compared with students of schools with no hair code, and I believe that our students recognize this and like it the way it is.

Melodie Linebaugh, R.N., the college nurse, who is also a member of the personnel staff, holds the U.S. in Nursing from Cornell University and New York Hospital School of Nursing, and is the first Bryan nurse to have this position as full time responsibility.

Q. How does the incidence of illness relate to various activities or academic pressures?

Linebaugh: There is always a noted rise in illness at the end of a semester when papers are due and finals are soon to be taken. This may be because a student just needs a break or it may be that all the time of staying up late and getting up early, or even doing "all nighters" finally catches up with him.

ANN (CHILDERS) MALONEY '67 is taking courses at UNCC for a master's degree in education while also teaching language arts to three eighth grade classes at Indian Trail. She and her husband, Bob, live in Matthews, close to Charlotte, N.C. and have a daughter, Laura, who is 4½ years now.

JOHN BURNS '68 is a teacher in the Hamilton (Ohio) school district and basketball coach.

SHIRLEY (HODGE) FITZ-RITSON x'68 received the bachelor's degree from the University of South Carolina last spring.

DAVID '69 and Sue CRAWFORD and their two children are living in Grand Rapids, Mich., while on furlough from Korea. Sue has recently released a new record entitled, "Sue Hong Crawford Sings Happiness." The Crawfords have affiliated with Missioneers for Christ International and plan to return to Korea in the summer.

DON '59 and SHIRLEY (FLEMING) '59 EMMERSON are shown with their year-old son, Derek Stephen, in Perry, Mich. Don completed work in August for his master's degree at Michigan State University. He then returned to the job he had vacated for a year as a specialized tutor with the Shilohs County Intermediate School District. He enjoys the job and finds many opportunities to witness for Christ. Shirley has had several new ventures recently—caring for the new baby, taking some swimming, and piano lessons. Both Don and Shirley are involved in activities at their church which has plans for a new auditorium.

Q. Do you think spiritual composture has any effect on physical well-being? If so, what suggestions can you give in this relationship?

Linebaugh: A peaceful and Christ-centered mind affects the body in a very positive way. Worry can bring on many illnesses even to the point of necessitating an operation. Each person must determine how his mind affects his life and whether he should change his mind.

Q. What improvements do you think need to be made in the health services at Bryan?

Linebaugh: I feel there is a real need for a place to house especially ill students where they will be undisrupted by their roommates. Also, there is a need for a place to isolate a student with a communicable disease.

Q. What hopes do you have for future development at Bryan?

Andrews: I hope to attend chapel in a beautiful new building with a student body of eight hundred. I hope to have a new dorm so that some of the male students won't have to be asked to live in less favorable housing.

Q. What word do you have for alumni who may have children or friends ready for college?

Zopfi: Send them to Bryan, for I do not believe that you can find a better Christian college. We have a dedicated Christian faculty. The academic training is of the highest caliber. Thank God that He has kept Bryan true to Himself and His word through the years. Sometimes alumni have said. "I am glad that I was a Bryan that had changed!" Bryan has grown, it is now accredited; BUT Bryan has NOT CHANGED SPIRITUALLY. Come and see. As alumni, let us support Bryan in every way possible.
